

Twelve years' education for every Commonwealth child. Finding the money

Date: 29 April 2021 | Time: 12:00 | Venue: Virtual

Join this engaging webinar with Commonwealth partners: Council for Education in the Commonwealth (CEC); Commonwealth Consortium for Education (CCfE); International Parliamentary Network for Education (IPNEd) and Commonwealth Parliamentary Association (CPA).

During the peak of the Covid-19 pandemic 1.6 billion learners were out of school and school doors were shuttered for 168 million children for an entire year. Amidst this, it is education budgets that will feel the greatest impact. Two-thirds of low- and lower-middle-income countries have cut their public education budgets since the onset of the Covid-19 pandemic.

Therefore, it is now more critical than ever to advocate for resilient and gender-transformative education financing - the Commonwealth should be a leading platform to support education financing.

Registration: Attendance at the event is strictly by invitation only and early booking is essential.

To avoid disappointment, please **RESERVE** your place here:
